

Dear Federations,

I think all of us have read the article in "The Telegraph" with horror. As we were assured by mail from Nick Caunt and Angela Russel, none of BN's Committee had transmitted these data. Of course, we cannot let these allegations without any reaction, we have consulted a lawyer and we will wait for further results. As our possibilities towards the press in the United Kingdom are somewhat limited, respectively associated with high costs, we will be glad to accept the offer of Angela to insist on a reply.

At the end, the annual accounts, so including also the expenditures, of the years 2010-2015 have been approved by the respective delegates during the last 3 congresses (partly even without any comment or any opposition!). In addition, it is a fact that during this period the INF-FNI has increased its provisions by more than EUR 100'000. All costs, liabilities and investments have been financed each time from the ordinary income.

Also, we may refer to the external audit by the "Traun Treuhand", who issued a positive testimony in its certificate to the responsible people at the INF-FNI.

What is somehow surprising us is that the information to this "English Group" must come from a federation or a single person, who transmits our interna from our partially protected download. This is an abuse of data and can in no way be tolerated. We will try by all our means to identify the author and then take the necessary steps.

Or should this be the new publicity for naturism, which will bring us many new members? With the best of our will – we definitely cannot imagine that.

Sieglinde Ivo
